Welcome to Urban Bonfire™ By Oasis Outdoor Living™

Urban Bonfire™ by Oasis Outdoor Living designs and manufactures functional, beautiful and high-performance outdoor kitchen and entertainment solutions for clients around the world. With a fully integrated in-house design team, efficient manufacturing and compatibility with most major outdoor appliances and countertop surfaces, Urban Bonfire™ by Oasis Outdoor Living is the market leader in outdoor space activation centered around family, friends, food and lasting memories.

Each Urban Bonfire™ by Oasis Outdoor Living outdoor kitchen system features a wide array of functional, aesthetic and finishing options to choose from. Every custom layout and design is configured to maximize outdoor cooking and entertainment space while offering versatility, integrated storage and a carefully curated series of colors, handles and finishing choices.

The TUSCAN from our Custom Collection

Presented with Evo and Hestan beer dispenser, Dekton® countertop in Opera, powder coating in Anthracite and bronze Pull handles in Black Bronze finish.

The VISTA from our Custom Collection

Presented with Coyote appliances, Dekton® countertop in Lunar, powder coating in Artesan and bronze Bauhaus handles in White Bronze finish.

The Urban Bonfire™ By Oasis Outdoor Living Framework

Construction

- Non-combustible thick gauge marine grade aluminum
- Outdoor grade 304 stainless steel hardware

Integrated Backsplash System

- Extruded aluminum with electrostatic powder coating
- Matching Clip-in Planters and accessories available

Customizable

- Super durable electrostatic powder coating included on all cabinets, planters and accessories
- Carefully curated designer-inspired color options and "living finish" bronze handles upgrades available in various shapes and tones

Planter Boxes

- Fully welded, powder coated marine grade aluminum
- Curated series with custom shapes, height and sizes available

Compatibility

- Custom trim kits for compatibility with most major outdoor appliances brands and models
- Ready to receive Dekton® and other outdoor-rated countertop materials

Universal Track System

- Numerous interior accessory options allow for easy customization
- Maximized efficiency, functionality and usage of every cabinet

A Solid Foundation

- Commercial grade stainless steel leveling legs
- Self-leveling toe kick that adapts to slope and outdoor site conditions

MATERIALS, FINISHES AND HARDWARE

Materials and Finishes

Marine Grade Aluminum

Non-combustible, thick gauge marine grade aluminum construction for all Urban Bonfire™ By Oasis Outdoor Living cabinets, planters, accessories and backsplash systems.

Urban Bonfire™ By Oasis Outdoor Living's marine grade aluminum is twice as thick as most stainless steel cabinetry on the market, yet lighter in weight. Aluminum is easy to transport and cooperates well during installations. It is the ideal material for extreme climates (snow, ice, salt water, humidity) and long-term quality.

304 Stainless Steel Hardware

We use outdoor grade 304 stainless steel for our door slides, hinges, pulls and leveling legs.

NACRAĒ™

Urban Bonfire™ By Oasis Outdoor Living's **NACRAĒ™** finish was inspired by the beauty, strength and resilience of mother-of-pearl. Each finish is crafted with a micro textured formulation that preserves and protects beauty, creating a stable depth of color in all climates and any outdoor environment.

Now with revolutionary, all natural, **anti-microbial** protection.

NACRAĒ is engineered for life outdoors.

Standard feature on all Urban Bonfire™ By Oasis Outdoor Living products

Durable, 4-season formulation that resists scratches, fading and stains even in harsh climates.

FDA approved and environmentally sustainable material and process.

Integrated all-natural anti-microbial properties for maximum safety and freshness.

A collection of specialty colors developed in collaboration with iconic designers.

Powder Coating Options

Our custom formulated “Super Durable” finishes are applied to AAMA 2604 standards. A slight textured finish adds depth to the color and resists fingerprints. Available in 6 curated designer-inspired colors.

Onyx

A deep, dark black that is sure to create a standout piece in any environment.

Anthracite

Modern dark gray with a slate undertone that works beautifully in concrete and contemporary urban environments.

Artesan

A dark gray finish with a warm bronze undertone. Designed to accent wood and natural limestone while still creating a welcome contrast through its depth of tone.

Chantilly

This crisp white works in almost any outdoor setting. Reflecting tones of silk and clean linen.

Clay

An elegant and versatile rich beige. Enhances the mood and atmosphere of any classic outdoor living space.

Pewter

Warm dark gray with bronze undertones. Adds a refined touch to any outdoor environment.

Handle Options

Each cabinet includes our premium outdoor grade **304 stainless steel handle**. For added personalization and design, handle upgrades in powder coated finishes are available (optimal choice for heavy saltwater climates).

CUSTOM DESIGN

Our Custom Design Process

We are dedicated to creating designs that are expressions of our clients' individuality. This passion for creative design makes the art of developing custom outdoor kitchen solutions highly engaging and interactive. We believe that custom outdoor kitchen systems should reflect the lifestyle, aesthetic and spatial parameters of every individual client.

Work with a member of our passionate and professional design team to experience your outdoor cooking and entertainment space possibilities.

Before We Start...

Gather basic dimensions of your space, plans, sketches, inspirational photos and any additional ideas for the vision of your space.

Step 1 Start Your Design Process

Your custom design process begins with a one-on-one virtual consultation with a dedicated Urban Bonfire™ By Oasis Outdoor Living designer to gather information about your lifestyle, aesthetic preferences and basic spatial parameters of your new outdoor room.

“How will your outdoor space integrate with the indoors for day to day and larger entertainment uses?”

“What types of cooking do you enjoy and for how many people?”

“What types of activities do you hope to enjoy in your new outdoor living space?”

This will allow our team to determine the most appropriate layout and materials and present a custom solution that incorporates selected outdoor cooking appliances with integrated storage, functionality and counter space.

Try our simple **Request for Design** form as a first step to planning your new outdoor space and prepare for your consultation.

Our design team will work with you and/or your design professional to develop a preliminary layout that can be modified as necessary to meet with most spacial, aesthetic and budgetary parameters.

Step 2 Design & Planning

Following the initial consultation, our design team will create a personalized proposal for your project.

Our proposal includes beautiful 3D renderings and 2D plans, as well as a detailed quote for your project. Appliances and countertop sold separately.

Design proposals are presented in a comprehensive package via a virtual meeting with your Urban Bonfire™ designer.

Step 3

Production

Once the design is approved, we begin producing your kitchen. Lead times are typically about 6 weeks. US clients receive orders from the distribution center located in Champlain, NY.

Step 4

Quality Control & Packaging

Upon completion of our production process, each project must pass quality control and staging before final crating and shipping. With your kitchen staged in our bright assembly facility, each cabinet is inspected and numbered in accordance with your custom designed plan. With final inspection and staging complete, the fully assembled cabinets are packaged in their own, custom made, packaging and prepared for shipping.

conditions, local codes, equipment specifications
and gas types. Check with your local licensed
professional to ensure full and complete
compliance to codes.

THE CLASSICS
URBAN BONFIRE™
BY OASIS OUTDOOR LIVING

“The Classics” - Urban Bonfire™ By Oasis Outdoor Living

Urban Bonfire™ By Oasis Outdoor Living's Classics program offers a series of our most popular outdoor kitchen configurations, colors and accessories. Every “Classics” outdoor kitchen includes a professional Dekton® Countertop template and is compatible with most industry leading outdoor grill and appliance brands.

Powder Coating Finishes

Our custom formulated “Super Durable” finishes add depth to the colors and resistance to fingerprints.

Anthracite

Modern dark gray with slate undertones. Elevates contemporary and outdoor urban environments.

Clay

An elegant and versatile rich beige. Enhances the mood and atmosphere of any classic outdoor living space.

Pewter

Warm dark gray with bronze undertones. Adds a refined touch to any outdoor environment.

Powder Coated Handles

Each “Classics” kitchen includes both our basic and fully powder coated, matching, outdoor grade 304 stainless steel handles.

Technical Details - Cube, Partition & Trough Planters

Fully welded thick marine grade aluminum, powder coated and built to last. The drainage holes at the base ensure proper drainage and prevent over watering. Our series of Countertop Planters are designed for a minimal and sleek look, ideal for herbs, flowers and other annuals.

Cube Planter

Designed to fill a space without adding extra storage, a Cube Planter is a beautiful and functional addition to an outdoor kitchen. Freestanding, fully welded and made of thick marine grade aluminum. Includes choice of powder coating in any one of our standard colors.

Partition Planter

Designed for placement behind a kitchen to create a freestanding “living” backsplash structure, Partition Planters are also ideal for delineating a space and creating more intimate environments.

Our Partition Planters offer the option of having an indented u-channel base to give a subtle elevation.

Option for direct ground placement (as shown below) is also available and creates a seamless backdrop to your Urban Bonfire™ kitchen.

Technical Details - Cube, Partition & Trough Planters

Fully welded thick marine grade aluminum, powder coated and built to last. Each Cube, Partition and Trough Planter comes equipped with pre-machined drainage holes and 1 ½" geotextile covered insulation.

Slatwall Backsplash

Our extruded aluminum modular backsplash system is available in our standard powder coating finishes. Designed to be both aesthetic and functional, these 6" tall panels can be configured to various heights and can house planters and other accessories.

Model	Width	Length
Small Panel (A-SLATWALL-SMALL PANEL)	6"	6" - 48"
Large Panel (A-SLATWALL-LARGE PANEL)	6"	48 1/8" - 96"

Our backsplash system must be installed against an existing wall or structure. Installation requirements may vary based on site conditions, local codes, equipment specifications and other factors. Check with your local licensed professional to ensure full and complete compliance to codes.

Clip-in Planters

Clip in planter accessory for modular slatwall backsplash. Dimensions L6" x W12" x H6".
